Highschool: Vista Del Lago High School, Folsom, CA   **Graduation:** Summer 2019
Highschool GPA (unweighted): 3.8   **Highschool GPA (weighted):** 4.11

Experience

Intel Corporation – Internship (Folsom, CA; June 2019-August 2019)

Created GUI application in C++ to perform complex functions and filtering on Windows PCI driver logs to aid developers in debugging and performance analysis efforts. Delivered fully functioning tool within the 8 week timeframe that met project specifications, and included helpful features not originally specified.

HP CodeWars – Programming Competition (March 2017, 2018, 2019)

Trained and advised all teams from my high school for the programming, format, and the best practices for the competition. I won 3rd place in the advanced category in 2019.

Programming Club – Leadership (2018, 2019)

In 2019, I managed all meetings, events, and club affairs as President. In 2018, I handled finances as Treasurer.

Projects

mood – Project (April 2019-Current)

Implemented a new webpage syntax for the vibe.d web framework in the D programming language. The project delivers a PHP-like syntax among other features.

reece.ooo – Project (May 2018-Current)

My personal website where I post my thoughts, showcase my projects, and host side projects. Written in the D programming language using the vibe.d web framework and MongoDB.

GitHub – All Projects (2016-Current)

I host all of my projects on GitHub, including the projects listed above. If you would like to explore the rest of my projects, you can find them at github.com/ReeceJones.

Strengths

Self-Determined • Motivated • Focused • Work Well Independently • Team Member
